

Hello,

What follows are a few notes on the upcoming three day meeting from Perth. I have looked at the last five seasons of all races run at Perth in April – which I believe only covers this meeting!

As always, the aim of this info is to help with your own analysis and with any luck help ensure you have a profitable three days. (or even more profitable)

There are some general stats which I hope are self-explanatory. At the end are a handful of 'trainer micro systems' which will hopefully ensure we focus on the right horses from those trainers concerned.

Anyway, enjoy.

Josh

Trainer Micro Systems (Perth/April)

Micro 1

- Nigel Twiston-Davies
- NOT run 46-60 days ago

	Bets	Wins	Win%	P/L(SP)	Places	Place%	ROI(SP)	P/L(BF)	P/L(Plc)	A/E
ALL	34	11	32.35	33.54	20	58.82	98.65	39.29	19.48	1.61
2015	9	3	33.33	15	5	55.56	166.67	17.67	6.74	2.61
2014	5	2	40	0.57	5	100	11.4	0.83	6.5	1.39
2013	5	1	20	-3	3	60	-60	-3.04	1.46	0.98
2012	8	3	37.5	16.97	4	50	212.13	19.27	1.93	1.35
2011	7	2	28.57	4	3	42.86	57.14	4.56	2.86	1.98

In truth you should pay attention to every horse that NTD sends to the track but I did find it interesting that those returning within 46-60 days are 0/11, 2 places. Now, that could well just be an anomaly- they are small numbers after all – but there could be some logic, as that rest pattern is what I call 'strange'. Those that return sooner may have been on the go and be race-fit. Those returning after longer breaks may have been targeted at the meeting – whereas this middle band may suggest a hold up or something. That could all just be nonsense but is something to look out for.

GORDON ELLIOT's...are generally over-bet now here I think. But it should be noted that with ALL hurdlers he is: 22 bets / 9 wins / 11 places / 41% sr / +11 SP / +15 BFSP / AE 1.42

VICTOR DARTNALL...his are all worth a second glance...5/19, 12 places. But, they are all generally well supported. Of interest, those that come here having WON last time out are: 4/5, 5 places...+11 SP.

MICRO 2

- Donald McCain
- 10/1 or shorter SP

	Bets	Wins	Win%	P/L(SP)	Places	Place%	ROI(SP)	P/L(BF)	P/L(Pic)	A/E
ALL	25	7	28	9.58	16	64	38.32	11.89	10.57	1.31
2015	4	2	50	9	3	75	225	10.31	5.44	2.99
2014	5	1	20	1.5	4	80	30	1.84	3.73	0.93
2013	11	1	9.09	-7.5	4	36.36	-68.18	-7.18	-2.99	0.42
2012	5	3	60	6.58	5	100	131.6	6.91	4.39	2.42

Fairly simple but sometimes that is best. It looks to me that McCain clearly targets these three days with some decent and/or well handicapped horses. The no. of placed horses would suggest that. Those going off over 10/1 are 0/10, 0 places...so the market has been some guide, so far. He has also had a decent enough season given his ammo and has probably gone under the radar, racking up another 50+ winners. Given what happened this year then all credit to him.

He is currently 0/4, 1 place with handicapper hurdlers from those stats above.

- Handicap Chases: 3/9,5 places +8 SP
- Non-Handicap Hurdle: 3/10,8 places +4 SP

MICRO 3

- Tom George
- Handicap Chase
- NOT 3m7f (Highland National?)
- 2 or more runs in previous 90 days

	Bets	Wins	Win%	P/L(SP)	Places	Place%	ROI(SP)	P/L(BF)	P/L(Pic)	MxOdd	A/E
ALL	10	4	40	21.5	6	60	215	26.5	5.38	11.00	1.77
2015	2	0	0	-2	0	0	-100	-2	-2	4.50	0
2014	2	2	100	13	2	100	650	14.82	4.56	11.00	5.88
2013	4	1	25	4.5	2	50	112.5	7.08	0.76	9.00	1.19
2011	2	1	50	6	2	100	300	6.6	2.05	8.00	2.08

To extent this one can be taken with a pinch of salt – most of his runners, and his handicap chasers in particular are worthy of a second glance. He is however 0/4, 0 places in the 3m7f race to date. All handicap chasers he has sent, that have only had 0 or 1 runs in previous 90 days are: 0/8, 4 places. His 'hard fit' chasers do best, to date. On the flip side, we know he can ready one, so that is very much only a guide – but interesting nonetheless.
