

## **Members Club - 'Festival' Trainer Notes – The Craven Meeting 2017**

### **Intro**

*The purpose of these notes is to highlight positive stats for trainers that have traditionally done well at certain 'Festivals'. HorseRaceBase appears to have around 71 such 'Festivals' within their system building software, which makes research that bit easier. Many are 2-3 day Festivals such as this one.*

*I am a firm believer that trainers are creatures of habit and will target certain meetings with the same type of horse and the same type of race, year after year. They don't all do that of course, but enough do, especially on the Flat.*

*These notes are only ever a guide and a starting point. Often we will be dealing with small enough sample sizes. You are free to use the information as you please. I have tried to focus on the 'positives' rather than any negative stats. I don't think this approach should ever put you off a horse; more highlight the positive chances of others.*

*I will be making NO commitment to highlighting any 'qualifiers' in the Members Daily Posts. Time allowing I will try and post up any horses of interest against the notes, but by all means feel free to use the comments to highlight any horses that catch your eye etc.*

### **The Craven Meeting 2017**

I have looked at the last 5 meetings and have focussed on those trainers with 5 or more winners in the period.

Total 5 year stats: 873 races / 85 wins / 233 placed horses

All stats are for 'any odds' unless otherwise stated.
