May I take this opportunity to respectfully remind you only to ever bet with an amount of money that you can afford to lose. First and foremost betting should be fun and enjoyable. You should always start small and work your way up over time. This game rewards patience.

While I have spent many hours researching this guide and have every confidence in the trainer stats contained within it I cannot guarantee their future success. How To Use This Guide

This guide is split into two sections, one for the Flat (page 3 onwards) and one for the Summer Jumps (page 67 onwards) You have access to a 'trainer track profile' for each UK Flat and Summer Jumps Only Track, 36 in total.

The main focus is on handicaps.

All stats are from Jan 1st 2014 through to end Dec 2017. 3 Full Years/seasons.

The Flat

It should be noted that Wetherby is excluded from this report due to only resuming racing in the last two years and a lack of substantial data, especially for last season.

There is one stat for trainers who do well with 1st Time Out 2 Year Olds.

ALL other stats relate to 3yo+ and 4yo+ ONLY Handicaps, as stated.

They do not cover 2 year old only handicaps or 3 YO Only Handicaps.

Stats refer to 'standard' handicaps. They exclude selling handicaps or claiming handicaps etc.

A bonus section at the end covers 3 Year Old Only Handicaps

Summer Jumps

There is one stat for trainers who do well in National Hunt Flat races.

ALL other stats refer to standard handicaps only, excluding 'novice handicaps' and others such as selling handicaps.

A bonus section at the end covers Novice Handicaps.

**

Hopefully the stats are clear enough. Once you get into the habit of flicking through the race cards you will be finding qualifiers in no time.

If you ever have any questions do email me: info@racingtoprofit.co.uk

**

These stats do not have any odds caps. Evidence from the main winter guide suggests that it may be best focusing on bigger priced horses, 6/1 or bigger. The most profit has been made from those in the 10/1+ range. Do take some time to find an approach that works for you.

I will publish monthly results updates on the blog that discuss the best approaches. You can read the update at the end of March, for the winter stats, HERE>>>
