Big Meeting Notes: Newmarket July Meeting

Intro

What follows are some more 'big meeting trainer notes'. We've had some success with these this Flat season and in general it has been a case of the bigger the odds the better, with numerous 8/1+ winners at York, Chester, Royal Ascot and The Curragh so far.

There are three 'micro systems' and a collection of 'positive pointers' .

The guide for the micros were angles that had at least 20 qualifiers, 5+ winners, 25% win and 50% win/place SR OR 30% win sr.

There are numerous other pointers for various trainers and you may take the view that some of those look more interesting than others.

I will highlight all micro system qualifiers and do my best to post 'notes' for horses that hit the 'positives'. If you think I have missed any on said day's racing, do post a comment.

You're free to use these notes how you please. I would use them as starting points but I will leave that to you. These are all new and untested 'live' so some caution is always advised.

Hopefully they point to a few decent priced winners and help you have an enjoyable meeting,

Good Luck,

Josh
