NOTE: These five trainers appear to target this meeting. It may be worth checking on their recent form and using these as starting points. Their qualifiers would provide a good focus to any day's racing.

IMPORTANT... ODDS... Fahey is 0/16,0p with all runners sent off over 14/1 SP. The others have much smaller numbers and it should be noted that...

Roger Varian... is 1/3,1p, +23 with all runners over 14/1, thanks to a 25/1 winner. So ALL of his runners are worth a look.

Cumani.. he is 0/1,1p with bigger priced runners, so again do not be put off by those.

Gosden... his appear to be well backed/short in general.. backing all of his may not be wise in that context but there are a couple of pointers below.

As always the above is only a guide.
