Stalls/The Draw

(to be treated as a guide, not systematically. I think there could be some logic to the below but it could just be random...eg over 5f, stalls 3/4 do a lot better than 1/2)

Handicaps

- 5-5.5f / stall no. 3 or 4: 7/18,8p, +43 BFSP
 - No. 1 + 2: 1/17,7p (could just be random, esp given place stats)
- 1m2-1m2.5f / stall no. 11 or 12: 3/11,5p, +15

All 5f + 6f races

- Stall no 3: 9/29,14p, +30 BFSP
 - Non handicaps (exc maidens): 5/10,7p, +17 BFSP
 - Age 4 or older: 6/9,6p, +38
 - 5f only : 9/24,13p, +35
